Valco Group SA (VGSA) is focused on trading, servicing, repair and maintenance of all types of valves for Power Generation, Oil & Gas, Chemical, Petrochemical, Water & Nuclear appplication.

Quality is the cornerstone of our business. We strive to deliver products and services that not only meet but exceed customer expectations. Through teamwork, innovation and a relentless pursuit of excellence, we ensure the highest level of quality in everything we do. Our core values are:

1. **Commitment to Quality**: Clearly stating the organization's dedication in maintaining high standards of quality
2. **Customer Focus**: Emphasizing the importance of meeting and exceeding customer expectations
3. **Continuous Improvement**: Pledging to continually enhance the processes and systems to improve quality
4. **Compliance**: Ensuring the adherence to the relevant regulations, standards, and requirements
5. **Employee Involvement**: Encouraging employees to actively participate in quality improvement initiatives

Quality objectives in line with the strategic direction of the business shall be set and reviewed annually in the Management Review Meeting.
